

**Numerical and experimental study of the thermo-hydro-
mechanical behavior of concrete under severe accident
conditions using a poro-mechanical approach**

Tan Kiet HONG

Thesis

Presented in partial fulfilment of the requirements for the degree of
Master in Civil Engineering
International Program "Geomechanics, Civil Engineering and Risks"

Université Grenoble Alpes

June 2026

Project Supervisor(s):

- Julien BAROTH, Université Grenoble Alpes
- Stefano DAL PONT, Université Grenoble Alpes
